

Ryan Mello

[916-742-2992] [ryanmello897@gmail.com] [<https://www.linkedin.com/in/ryanmello/>]

Education

B.S. Computer Science, Certificate in Software Engineering

2026

University of California, Sacramento, GPA 3.5

Committee Chair of the Data Structures and Algorithms Club

- Lead group discussions on LeetCode problems, host mock interviews, create and present slides during weekly meetings, and table at campus events to promote the club

Experience

Buzly

October 2022 – January 2023

Software Engineer Intern

- Implemented a functional Event Calendar within the client-end dashboard, enabling users to add new events, edit current events, and view upcoming events.
- Over 400 events were created by 15 clients in two months
- Redesigned the dashboard and implemented new features such as mobile responsiveness and dashboard customization

Home Depot

May 2021 – August 2022 (16 Months)

Order Fulfillment Associate

- Picked online orders, staged the items for pickup, brought orders out to customer vehicles, and helped them load their items
- Ensured that items being picked and given to customers were high quality, clean, and not damaged to guarantee customer satisfaction and likelihood to shop again
- Fulfilled large contractor orders and got them ready for delivery. Verified orders to make sure all items were accounted for and that the orders were ready to be loaded
- Licensed Reach Truck and Forklift operator

Math Tutor

September 2020 – February 2022

- Tutored 5 middle schoolers over 18 months and helped them better understand the Math topics they were learning in class, provided assistance with homework, and walked them through extra problems to increase their course grade and confidence when learning
